

ARACO ACTIVE L

Waterproofing Concrete Admixture

Product Description

ARACO ACTIVE L is a high range water reducer waterproofing admixture based on modified polymers technology

ARACO ACTIVE L is a development of water reducing and waterproofing compound meets the requirements for ASTM C-494 A and D.

Applications

ARACO ACTIVE L is recommended for use in structural and mass concrete, particularly for water-retaining structures such as:

- Sewage Tanks
- Roof Slabs
- Rendering
- Canals
- Reservoir and Dams
- Culvert

Product Advantages

- Improved workability without increased water content
- Improved water tightness
- Reduced shrinkage
- Allows easier compaction leading to denser concrete and superior finish
- Chloride free - does not attack reinforcement.

Product Data

Characteristics

Composition Water-soluble biopolymers

Appearance Brown liquid

Storage Condition Store in a dry area between 5°C and 35°C. Protect from direct sunlight

Shelf Life 12 months minimum from production date if stored properly in original unopened packaging.

ARACO ACTIVE L

PACKAGE 25 lt. or 200 lt drums. 1000 liter

DOSAGE 0.5 to 1% by cement weight

Technical Data

Test	Value
Density	1.06 ± 0.03 (ASTM C494)
Chloride Content	NIL (BS EN 480-10)

Safety instructions

Product may cause skin irritation. Wear gloves and goggles and apply barrier cream to hands. In contact with eyes or mucous membrane, flush immediately with plenty of warm water and seek medical attention without delay.

Legal notes

The information, recommendations and application - based on ARACO current knowledge and experience of the products when properly stored, handled and applied under normal conditions. ARACO products are guaranteed against defective materials and manufacture and are sold subject to its standard conditions. Users should always refer to the most recent Technical Data Sheet for the product concerned, copies of which will be supplied on request.
